

Symfony Learning Resources (12-Day Plan)

1. Official Symfony Documentation

Symfony Docs: <https://symfony.com/doc/current/index.html>

Learn Routing, Controllers, Doctrine, Twig, Services

Well-structured with code examples.

2. Best Symfony Crash Courses on YouTube

Symfony 6 Crash Course (Full Guide) - 1.5 Hours

Watch Here: <https://www.youtube.com/watch?v=0LzQUIUANnHc>

Covers Routing, Controllers, Doctrine, CRUD

Symfony 6 & PHP Crash Course (Project-Based) - 1 Hour

Watch Here: <https://www.youtube.com/watch?v=1HdYkZMfTtU>

Build a real-world project while learning Symfony.

3. Interactive Learning - SymfonyCasts

SymfonyCasts Tutorials: <https://symfonycasts.com/tracks/symfony>

Step-by-step video tutorials

Some free lessons, premium content is high-quality.

4. Quick Cheatsheets for Symfony

Symfony Cheatsheet: <https://symfony.com/doc/current/reference/index.html>

Quickly reference Symfony commands.

5. Community & Help

Symfony Slack: <https://symfony.com/slack>

Symfony Stack Overflow: <https://stackoverflow.com/questions/tagged/symfony>

6. Suggested 12-Day Learning Plan

Day 1-4: Master PHP Basics (OOP, Superglobals, PDO, Error Handling)

Day 5-6: Learn Symfony Fundamentals (Routing, Controllers, Views)

Day 7-8: Work with Database (Doctrine ORM)

Day 9-10: Understand Dependency Injection & Services

Day 11-12: Build a Mini Project (CRUD with Symfony)

Follow this plan, and you'll be ready before your training ends!

Good luck!
